

TIPS FOR A WEDDING ON A BUDGET

Get married on a weekday instead of a weekend.

Use mostly fake flowers and only use real flowers that are in season. Keep them simple and order in bulk from craft store.

Have the Rehearsal dinner, ceremony, and reception all at the same venue.

Order Sheet cakes for dessert from a grocery store.

Skip save the dates and send out invitations early. Also make your own invitations and thank you cards at home.

Think outside the box for food, Do BBQ or a taco bar. Also, offer a cash bar with 1 or 2 signature drinks at a discount.

Pick a venue that doesn't need much decorating. This will help with setting and keeping a detailed wedding budget.
